

MAKE A PHONE STAND

A simple guide.

STEP 01

Gather a coin, plastic card (debit, credit or loyalty card) and a pair scissors or blade.

STEP 02

Cut the wing tip (both sides) as indicated by an icon

STEP 03

Use a coin or blunt metal, with the help of a plastic card as a guide, to perforate both (dark & light) blue spikes.

STEP 04

Fold the longest vertical lines inwards to create a standing core..

STEP 05

Fold the shorter angled lines outwards to create a supporting back for your device in landscape mode.

CONGRATULATIONS

FINAL TIPS

The card can be unfolded for reuse.

We've created this business card with users in mind. Adding value to an ordinary fading business utility. Thus we hope it'll inspire our customers to do so for their customers.
